

LABORATORY SERVICES PRICE LIST

Effective: May 1, 2010

Various Analyses	Price
Strong acid cation	\$150.00
Weak acid cation	\$190.00
Strong or weak base anion	\$255.00
Mixed bed	\$510.00
Regenerated strong acid cation	\$265.00
Regenerated weak acid cation	\$335.00
Regenerated strong or weak base anion	\$395.00
Regenerated mixed bed SA/SB components	\$770.00
Cation Stratabed	\$456.00
Anion Stratabed	\$660.00
Water Analysis	\$335.00
TOC Testing	\$154.00
Partial Analysis	Call for Pricing
Rush resin testing (2-3 days turnaround time)	50% Mark-up

PLEASE CALL FOR PRICING ON ALL OTHER TESTING

All Resin Analyses Include:

Volumetric Capacity	Separation & Percent of Components (Mixed Bed & Stratabed)
Moisture Content	Site Composition (Regenerated Resins)
Visual Examination	Photo (upon request)
Report Including:	
Physical/Chemical Characteristics, Assessment of resins overall conditions, Recommendations for cleaning (when applicable)	

Instructions

Fill out the attached resin sample for analysis form completely. Send the completed form and an ample amount of each sample to the lab's attention at the address below.

Providing detailed information regarding each sample will aid in our ability to service your specific needs quicker and more efficiently. An ample amount of each sample (16 oz./500 ml) will provide us with enough resin to obtain larger sample volumes for increased accuracy, as well as the ability to perform several analyses simultaneously, thus providing a more timely completion date.
